SUMMARY

Dedicated Computer Science student with strong focus on learning new skills and gaining hands-on experience through projects, exploring emerging technologies in AI, machine learning, and web development.

EDUCATION

BS Computer Science

Bahria University, Islamabad

Sep 2024 – present

CGPA: 3.8/4.0

Intermediate

Dr AQ Khan School & College

2022 – 2024

Matriculation

Dr AQ Khan School & College

2020 – 2022

PROJECTS

Quiz Application

Features: Developed an interactive quiz application with multiple-choice questions, instant feedback on selected answers, score tracking, and final result display. Questions are dynamically rendered, allowing easy updates and customization.

Tools: React, JavaScript (ES6), CSS

Technologies: Vite, VS Code, Git, GitHub

Huffman Coding Compression System

Features: Developed a text compression system using Huffman Encoding to reduce message size for faster transmission. The project focuses on emergency communication scenarios where compressed messages can be sent and received quickly in time-critical situations. Implemented character frequency analysis, binary tree construction, and encoding/decoding for lossless data compression.

Tools: C++

Technologies: Data Structures (Trees, Priority Queue), OOP Concepts, VS Code, Git, GitHub

Chess Game

Features: Developed a two-player chess game with GUI. Implemented game logic including piece movement, turn management, and check/checkmate detection. Added a login system. Built using OOP(Object-Oriented-Programming) principles: classes, objects, inheritance, and polymorphism.

Tools: C++ , SFML

Technologies: OOP Concepts, VS Code, Git, GitHub

Gym Website

Features: Developed a responsive multi-page website including Home, Services, About Us, Community, and BMI Calculator. Added interactive navigation, program cards, pricing plans, member reviews, and footer with social media links.

Tools: HTML, CSS, JavaScript(basic)

Technologies: VS Code, Git, GitHub

CERTIFICATIONS & ACHIEVEMENTS

Coding Interview Preparation

Meta — Coursera

December 2025

Introduction to Front-End Development

Meta — Coursera

November 2025

AI For Everyone

DeepLearning.AI — Coursera

August 2025

Merit-Based Scholarship - Awarded for academic excellence at Bahria University

SKILLS & INTERESTS

- **Programming Languages:** C++, Python, HTML/CSS, JavaScript
- **Tools & Technologies:** React, Git/GitHub, VS Code, LaTeX, MS Office
- **Soft Skills:** Teamwork, Leadership, Communication
- **Interests:** Emerging Technologies (AI, Machine Learning, HealthTech), Web & App Development

EXTRACURRICULAR ACTIVITIES

- Manager at **BU AI Club**
- Class **Girls' Representative** (BSCS Batch)
- Active member of **Khalq NGO**
